

Exciting and rewarding opportunity for an NMP or GP with special interest to support our veteran community in Derbyshire!

STAND TO Derbyshire Veteran Community Services – Alcohol Service are looking for a Nurse Prescriber or GP who would like to provide a dedicated prescribing service for alcohol reduction and relapse prevention for Derbyshire veterans.

STAND TO provides a *veteran to veteran* service and works across Derbyshire County excluding Derby City. All veterans referred for Alcohol support have a skilled and qualified alcohol key worker
Clinical governance will be provided in part from DAAS as part of the Derbyshire Recovery Partnership and from within Derbyshire NHS Health Care Services.

We would expect to need approx. 3- 4 hours per week dedicated time for prescribing for up to 20 veterans per annum who will need between 1- 6 sessions.
Payment will be provided in line with NMP prescribing costs.

Here are what some of our veterans have said about having a dedicated nurse prescriber:

“She gave me very clear information and was not going to take any rubbish from me, It was great to meet with her and my ST key worker, and the relationship we all had was helpful to my success in staying off alcohol.”

“I haven’t looked back since seeing the NMP he was clearly very experienced and the link he had with the STAND TO project and his obvious understanding of veteran issues was what made all the difference”

If you are interested in this opportunity and would like to find out more please email: elaine.handley@daas.uk.com or phone : Elaine Handley – DAAS Service Manager on 01246 206514.
